

RamsellPBM Solution

Building on forty years of serving the underserved, **RamsellPBM** is designed to meet the specific needs of Public Health programs. **Ramsell's** unique approach to providing Pharmacy Benefit Management services integrates proven processes with customizable and configurable systems.

The Ramsell suite of PBM services can be a comprehensive service offering or it can be modularized for specific service needs.

The offering, whether a full-service or component solution, will result in improved program efficiencies and offers multiple benefits including:

- **Full transparency** – open communication with clients regarding performance and pricing.
- **Program consultation and design** – tailored to your requirements and expectations.
- **Improved program data management** – systems that provide real-time access to data, and reports that can be used for program trending and forecasting.
- **HIPAA compliant** – systems and technology that are HIPAA secure and compliant.

Ramsell has been creating positive outcomes for the health and safety of underserved populations since 1964. We help organizations maximize limited resources through cost-effective coordination of care and services for complex populations managed by public health programs, education and corrections. Ramsell offers highly-configurable, web-based technology solutions, services and expertise to assist our clients in connecting people to the services they need
