

November 1, 2021

Dear Illinois Medication Assistance Program (ADAP) Clinician:

The Illinois Department of Public Health would like to notify you of a change in the pharmacy service provider for members of the Illinois Department of Public Health’s Medication Assistance Program (ADAP) who currently receive medication from CVS Specialty Pharmacy. **Effective December, 1, 2021** prescription services will be transitioned from CVS Pharmacy to Walgreens Pharmacy.

We know how important it is for your patients to remain adherent to their treatment, so the Department is taking steps to ensure that there is no disruption in a member’s ability to receive their prescriptions. We request clinicians to work together with Walgreens to continue access to medications.

Please be advised of the prescription transfer process for this prescription service transition:

- All prescriptions with refills will be automatically transferred from CVS to Walgreens. There is no action required of the clinician for prescriptions with refills.
- Prescriptions with no refills or new prescriptions written after 12/1/2021 should be sent via electronic prescription to any one of the 21 Walgreens pharmacy locations listed below:

| # | Pharmacy Name | Pharmacy Address | City | ST | Zip | Telephone # |

If your clinic does not utilize electronic prescriptions, the patient can take a written prescription to their selected Walgreens pharmacy location.

The Walgreens Pharmacy Care Team will be reaching out to patients on a proactive basis each month and will:

- ✓ Help the patient manage any medication side effects
- ✓ Answer questions about medication(s)
- ✓ Document delivery pick up location (e.g. patient's home or local Walgreens pharmacy)

Walgreens pharmacy is committed to ensuring that your patients will continue to receive the highest in quality prescription services. Program members will now have the added option of picking up prescriptions at the pharmacy or if preferred, may continue receiving them in the mail as in the past. Program members are encouraged to let the Walgreens staff know if their preference is walk-in service or mail service.

Contact the Illinois Department of Public Health if eligibility is in question by calling 800-825-3518.

Contact the PBM help desk if you experience concerns with pharmacy service or with the pharmacy transition by calling 888-311-7685.

The Department, pharmacy providers and Ramsell Corporation, the Department's new pharmacy benefit manager, are working together with you to make this transition as seamless as possible for program members.

Sincerely,

Jeffrey Maras, Administrator
Illinois Medication Assistance Program
