Program Dispensing Policies

1. Rolling Hills Clinic mandates the use of generic products whenever possible in accordance with applicable law or regulations
2. Drugs marked with “^” require a prior authorization; Rolling Hills Clinic will request additional information before considering the authorization.
3. All drugs are to be dispensed with a maximum 30 – day supply, exceptions noted with “ ♦ ” can be dispensed at 90 days supply
4. Drugs marked with “●” must be dispensed with a minimum of 28 days
5. DEA class II and III drugs are to be dispensed with a maximum of 30 day supply
6. All control prescriptions (CIII – CV) must be reauthorized by the prescriber every 6 months. The claims adjudication system will accept 5 as the maximum number of refills. For non controls, an annual max of 13 fills per prescription exists
7. Refills may be obtained after 80% of the previously dispensed days supply has been used; however, there is an annual maximum of 390 days fill per drug

♦ = Drug can be dispensed at a max 90 days supply
 ● = Drug must be dispensed with a minimum 28 day supply
