

Medicaid Administrative Claiming and Targeted Case Management Consulting

Ramsell Public Health & Safety's (RPHS) Medicaid Services team is an industry leader in providing technical expertise in the field of federal reimbursement programs including Medicaid Administrative Claiming (MAC) and Targeted Case Management (TCM).

Under MAC and TCM, the Medicaid program reimburses state and local agencies for the administrative and case management activities they provide to Medicaid beneficiaries. In most instances, your staff members are already regularly engaging in these reimbursable activities. Depending on your jurisdiction, your department may be able to claim between 50% and 100% of your allowable costs, which include the salaries and benefits of your staff who perform reimbursable tasks.

Our Medicaid Services team will help your department maximize its reimbursement from the MAC/TCM programs, while minimizing disruption to your current workflows. RPHS's flexible consulting services and pricing models means that we can manage your agency's program from implementation to payment or provide a la carte consulting services, including:
