

FORMULARY
Virginia (VA) AIDS Drug Assistance Program (ADAP)
LAST UPDATED: June 2015

At a Glance: VA ADAP Formulary

Nucleoside/Nucleotide Reverse Transcriptase Inhibitors (NRTIs)
Non-Nucleoside Reverse Transcriptase Inhibitors (NNRTIs)
Multi-Class Combination Agent
Integrase Inhibitor
Fusion Inhibitor (FI)
Protease Inhibitors (PIs)
Entry Inhibitor (CCR5 co-receptor antagonist)
Opportunistic Infection (OI) Protection/Treatment
Adjuvant Therapy
Antianxiety
Antidepressants
Antipsychotic Agents
Antihyperglycemics
Antilipidemics
Bipolar Agents
Smoking Cessation
Nicotine Replacement Therapy
Hepatitis C Treatment
Vaccines

Procedure for Treatment Requiring a Medication Exception

- ✓ Medications for treatment experienced patients require a medication exception form, and are noted within the formulary along with exception the criteria.
- ✓ ADAP medication exception form required is for the initial prescription, documenting authorized indications in the “Reason for Exception” section and related medication history to the requested medication.
- ✓ To request a medication exception, please complete the medication exception form(s) and fax to HIV Care Services at 804-864-8050.

The VA ADAP Medication Exception Form can be found at:

<http://www.vdh.virginia.gov/epidemiology/DiseasePrevention/Programs/ADAP/forms.htm>

Eligibility Criteria

Please visit our website for full listing of eligibility requirements:

<http://www.vdh.virginia.gov/epidemiology/DiseasePrevention/Programs/ADAP/eligibility.htm>

Additional Resources

For information about Patient Assistance Programs (PAPs) for medications not available through this formulary, please visit our website for guides and resources:

<http://www.vdh.virginia.gov/epidemiology/DiseasePrevention/Programs/ADAP/obtaining.htm>

FORMULARY
Virginia (VA) AIDS Drug Assistance Program (ADAP)
LAST UPDATED: June 2015

Brand names, listed parenthetically, are for reference only

Nucleoside/Nucleotide Reverse Transcriptase Inhibitors (NRTIs)

- abacavir (Ziagen)
- abacavir + lamivudine + zidovudine (Trizivir)
- didanosine (Videx)
- emtricitabine (Emtriva)
- emtricitabine + tenofovir (Truvada)
- lamivudine (Epivir)
- lamivudine + abacavir (Epzicom)
- lamivudine + zidovudine (Combivir)
- stavudine (Zerit)
- tenofovir (Viread)
- zidovudine (Retrovir)

Non-Nucleoside Reverse Transcriptase Inhibitors (NNRTIs)

- etravirine (Intelence) - ***Requires an ADAP Medication Exception Form***
 - NRTI and first line NNRTI (delavirdine, efavirenz, or nevirapine) experienced or contraindicated, with either a detectable viral load or intolerance to current regimen.
- efavirenz (Sustiva)
- nevirapine (Viramune)
- rilpivirine (Edurant)- ***Requires an ADAP Medication Exception Form***
 - Treatment naïve with a recent viral load less than 100,000 copies mL or intolerance to efavirenz (Sustiva).

Multi-Class Combination Agent

- atazanavir + cobicistat (Evotaz)
- darunavir + cobicistat (Prezcobix)
- dolutegravir + abacavir + lamivudine (Triumeq)
- efavirenz + emtricitabine + tenofovir (Atripla)
- elvitegravir + cobicistat + emtricitabine + tenofovir (Stribild)
- rilpivirine + tenofovir + emtricitabine (Complera)

Integrase Inhibitor

- raltegravir (Isentress)
- dolutegravir (Tivicay)

Fusion Inhibitors

FORMULARY
Virginia (VA) AIDS Drug Assistance Program (ADAP)
LAST UPDATED: June 2015

- enfuvirtide (Fuzeon) - ***Requires an ADAP Medication Exception Form***
 - NRTI and NNRTI experienced or contraindicated, with either a detectable viral load or intolerance to current regimen, and prior experience with 1 or more PIs.

Protease Inhibitors (PIs)

- atazanavir (Reyataz)
- darunavir (Prezista 600mg)
- darunavir (Prezista 800mg)
- fosamprenavir (Lexiva)
- indinavir (Crixivan)
- lopinavir + ritonavir (Kaletra)
- nelfinavir (Viracept)
- ritonavir (Norvir)
 - Abbott Laboratories, manufacturer of Norvir, is currently making this medication available to clients who are on 400 mg per day or higher without charge to client or ADAP through their Patient Assistance Program. Clients or medical providers can contact the program directly at 1-800-222-6885. The website address is www.abbott.com.
- saquinavir (Invirase)
- tipranavir (Aptivus) - ***Requires an ADAP Medication Exception Form***
 - NRTI and NNRTI experienced or contraindicated, with either a detectable viral load or intolerance to current regimen, and prior experience with 1 or more PIs.

Entry Inhibitor (CCR5 co-receptor antagonist)

- maraviroc (Selzentry) - ***Requires an ADAP Medication Exception Form***
 - Requires a blood test that identifies HIV tropism type as CCR5 within 3 months of request

FORMULARY
Virginia (VA) AIDS Drug Assistance Program (ADAP)
LAST UPDATED: June 2015

Tropism Assay for CCR5 Receptor

- For information on obtaining a Tropism Assay, please refer to the Tropism Access Program offered through ViiV Healthcare Company at the link listed below:
 - <http://www.vdh.virginia.gov/epidemiology/DiseasePrevention/Programs/ADAP/support.htm> .

Opportunistic Infection (OI) Protection/Treatment

- acyclovir (Zovirax) – Oral
- aerosolized pentamidine (AP) - Have or had active thrush or have a CD4 count of 250 or less.
- amikacin (Amikin)
- atovaquone (Mepron) - Have or had active thrush or have a CD4 count of 250 or less.
- azithromycin (Zithromax) - Have or had CD4 count of 100 or less.
- cidofovir (Vistide)
- capreomycin (Capastat)
- clarithromycin (Biaxin)
- clindamycin (Cleocin) oral
- cycloserine (Seromycin)
- dapsone - Have or had active thrush or have a CD4 count of 250 or less.
- ethambutol (Myambutol)
- ethionamide (Trecator)
- famciclovir (Famvir) For Herpes Zoster only.
- foscarnet (Foscavir)
- fluconazole (Diflucan)
- ganciclovir (Cytovene) I.V.
- isoniazid (INH)
- itraconazole (Sporanox)
- leucovorin (Wellcovorin)
- levofloxacin (Levaquin)

Continued - Opportunistic Infection (OI) Protection/Treatment

- para-aminosalicylic acid (Paser)

FORMULARY

Virginia (VA) AIDS Drug Assistance Program (ADAP)

LAST UPDATED: June 2015

- prednisone (Deltasone) - ***Requires an ADAP Medication Exception Form***
 - Only authorized for the treatment of toxoplasmosis, Pneumocystis jiroveci (P. carinii) pneumonia, and aphthous ulcers.
- primaquine
- pyrazinamide (Tebrazid)
- pyridoxine (Vitamin B6)
- pyrimethamine (Daraprim)
- rifabutin (Mycobutin)
 - Have or had a CD4 count of 100 or less. For treatment of MAI, only for those clients currently on it and those unable to tolerate Zithromax.
- rifampin (Rifadin, Rimactane)
- sulfadiazine (Microsulfon)
- trimethoprim - Have or had active thrush or have a CD4 count 250 or less.
- Trimethoprim-sulfamethoxazole (TMP-SMX, Bactrim/Septra) - *Have or had active thrush or have a CD4 count of 250 or less.*
- Valganciclovir HCL (Valcyte)
- voriconazole (VFEND) - ***Requires an ADAP Medication Exception Form***
 - Only authorized for fluconazole resistant candidiasis, treatment failure of candidiasis after utilizing itraconazole, and for the treatment of invasive aspergillus.

Adjuvant Therapy

- epoetin alfa (Procrit)
- gabapentin (Neurontin)
- leucovorin (Wellcovorin)
- megestrol (Megace)

Antianxiety

- buspirone (BuSpar)
- hydroxyzine (Atarax)

Antidepressants

- amitriptyline (Elavil)
- bupropion (Wellbutrin)
- citalopram (Celexa)

FORMULARY

Virginia (VA) AIDS Drug Assistance Program (ADAP)

LAST UPDATED: June 2015

- doxepin (Sinequan)
- duloxetine (Cymbalta)
- escitalopram (Lexapro)
- fluoxetine (Prozac)
- mirtazapine (Remeron)
- nortriptyline (Pamelor)
- paroxetine (Paxil)
- sertraline (Zoloft)
- trazodone (Desyrel)
- venlafaxine (Effexor)

Antipsychotic Agents:

- chlorpromazine (Thorazine)
- haloperidol (Haldol)
- olanzapine (Zyprexa)
- risperidone (Risperdal)
- ziprasidone (Geodon)

Antihyperglycemics

- glipizide
- glipizide/metformin
- glyburide
- glyburide/metformin
- insulin (injectable only)
- metformin

Antilipidemics

- atorvastatin (Lipitor)
- pravastatin (Pravachol)
- rosuvastatin (Crestor)

Bipolar Agents

- lithium (Eskalith)

FORMULARY
Virginia (VA) AIDS Drug Assistance Program (ADAP)
LAST UPDATED: June 2015

- valproic acid / divalproex sodium (Depakote)

Smoking Cessation

- varenicline (Chantix)
- bupropion SR (Zyban/Buproban)

Nicotine Replacement Therapy

- Nicotine transdermal patch
- Nicotine nasal solution
- Nicotine inhaler
- Nicotine lozenge
- Nicotine gum

Hepatitis C Treatment

Requires an Hepatitis C/HIV Treatment Assistance Program Application

- ledipasvir + sofosbuvir (Harvoni)
- ombitasvir + paritaprevir + ritonavir & dasabuvir (Viekira Pak)
- ribavirin
- sofosbuvir (Sovaldi)

Vaccines

- Hepatitis A
- Hepatitis A/B
- Hepatitis B
- Influenza
- Pneumovax
- Pneumococcal Conjugate
- Tetanus and Diphtheria (Td)
- Tetanus, Diphtheria, and Pertussis (Tdap)
